Algorithm of actions

Version for potential private partners

The features of holding two-stage tender process on determining private partner

in accordance with Order No. 725 "On some issues of planning and implementing of public - private partnership projects"

Stage I – preliminary stage, to collect technical proposal from potential private partners (hereinafter – PP)

- After the announcement of the tender, organizer provides terms of reference (TR) and qualification requirements (QR) to PP.
- The organizer of the tender creates the competition commission to determine PP.
- PP provides the technical proposal, the process of discussing the technical, economic and operational performance characteristics of the subject is discussed in the competitive dialogue.
- The organizer of the tender develops and approves the tender documentation, based on the results of discussions with potential PP
- After expertise of the tender documentation, including the approve by budget Committee, the Organizer sends the invitation to participate in the second stage of the competition

Stage II – determination of private partner

- PP provides contest application to participate in second stage
- Contest application will be considered (examined) by competition commission
- Competition commission conducts negotiations with PP
- The organizer sends PPP contract for approval from city economic department (УЭиБП) and Agency on regulation of natural monopolies (ARNM)
- Competition commission determines the winner of the tender
- Further action of PP is regulated in subparagraph 2, paragraph 123, Order №725
